

# BUILDING TRADES PROGRAMS

Hands-on training can lead to real world success. At Orleans Technical Institute, you can earn your Trades diploma in just 6 or 13 months and take the first step toward an exciting career.

## CAREERS IN BUILDING TRADES

As an Orleans Tech student, you will gain the practical knowledge, hands-on experience, and technical skills needed to succeed in many facets of the business, from construction and installation to maintenance and repair.

**AIR CONDITIONING, REFRIGERATION & HEATING** Become a technician or mechanic and manage everyday problems and solutions for climate control and energy efficiency. Graduates are employable in a variety of vital positions to install, diagnose, service, and repair air conditioning, refrigeration, and heating equipment—from small units to entire systems.

**BUILDING MAINTENANCE** Develop a wide range of handy skills—from carpentry and painting to plumbing and heating—needed to maintain and renovate residential properties and commercial buildings or work as a maintenance mechanic in apartment complexes, health care facilities, and industrial establishments.

**CARPENTRY** Learn construction, installation, and renovation skills for an array of opportunities—inside and out—working with wood and other materials. Students experience building a house to scale and tackling framing, drywall, rough and fine finishing, siding, roofing, and door and window installation.

**PLUMBING & HEATING** Solve plumbing and heating needs for homeowners and businesses as assistant plumbers or pipefitters. Graduates are ready to work with gas, oil, and electric heating, lay out plumbing systems, and install water lines, fixtures, furnaces, and more.

**RESIDENTIAL & COMMERCIAL ELECTRICITY** Enter the field prepared to keep the power going and handle service wiring from the ground up in residential, commercial, and public establishments. Employment opportunities range from electrical installers and troubleshooters, to maintenance and electrical assistants.
