### Attachment A-III

- The following logic was used to determine amounts:
  - group is multiplied by the equal distribution dollar amount of \$407,955. This gives three “categories” of funds.

EFC 0	100% of equal distribution + EFC 1 to 5846 and EFC over 5846 or did not complete FASFA adjustments
EFC 1 to 5846	95% of equal distribution
EFC over 5846 or did not complete FASFA	85% of equal distribution

- Each of the three fund categories are then divided by the number of students in each respective group to give a new weighted allocation per student depending on their particular category.
- Half of the total \$815,910 grant amount for student disbursement was used to determine the per student allocation amount based on the above formula for all eligible students at the time of calculation who were active in a Title IV eligible program as of 7/1/2021 plus those who were expected to begin attendance in August 2021.
- A grant was or will be distributed to eligible students who request it by completing a simple application form.
- Students who begin attendance in Title IV eligible programs after August 2021 may also be eligible to apply for an emergency financial grant under the ARP(a)(1) program, if funds are still available.
